SNS76.8.37

960 g x 2

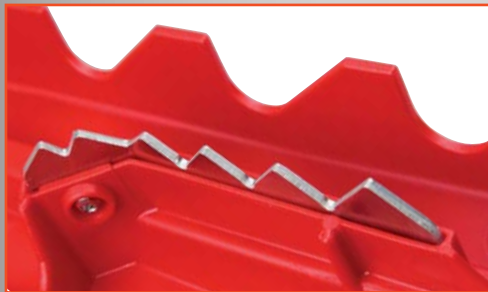

40 → 80 kg

34 → 42

Experienced hikers will understand immediately the interest of a smaller frame. This version is meant for women and men with lighter weight; smaller, handier with exactly the same technology.

HARSH IRONS WITH DIFFERENT SAW TEETH

4 steel harsh irons made of 6 spikes are fixed under the frame. Disposed in 4 different directions to offer best grip, in whatever direction you walk.

Front and rear spikes are longer to always find grip in case of icy snow. They are exchangeable.
